

Meet Ms. Jenna

To Parents and Dancers,

Hello! My name is Jenna Sower. I am so excited to be your child's dance teacher this year. This will be my 5th year teaching at Manyet! I have such a strong passion for working with kids and have a lot of experience with them. I am currently 21 years old and just recently graduated from Western Kentucky University with a bachelor's degree in Elementary Education. I am now working on obtaining my Masters in Advanced Teacher Education before I begin my teaching career. I have always wanted to become a teacher when I grow up, so working with kids is something I love doing!

On the other hand, I have had a lot of experience in the dance world. I danced at Manyet Dance from the age of two till I graduated from high school. I was a part of all the dance troupes and even took different genres of dance which included lyrical, pointe, and hip hop. I was a member of the Highlands Dance Team for six years throughout middle school and high school. When I went to college, I even was a member of the Western Kentucky University Dance Team. I am very dedicated to the sport and hope your child leaves every dance class saying that they had fun and learned something new. I cannot wait to express my dedication and love for the art to your child.

Looking forward to a great year!

Jenna Sower
